ICRIC 2027

Conference Blurb

The reality of conducting any research is to impart wisdom and growth in a society. The research contributions in the past have witnessed only interim growth and societal development. This situation continues due to undiscipline focus, wherein lack of integration of research across various disciplines remains untapped in many areas. The current global scenario is ever-changing and demanding, wherein the sustenance and livelihood will be more challenging in the ensuing years. Furthermore, the knowledge sharing through congregation of research across inter-disciplines and multi-disciplines for upbringing the overall socio-economic development and progression is quite indispensable.

Today's globalization has nurtured advancements in science & technology, entrepreneurial innovations, ergonomic practices, etc. due to IT interventions and digitalization. This has triggered the new gamut in the research arena, and it needs to address the upcoming trends in all sectors towards bringing in a holistic development. Hence, there is a need to holistically gauge the overall requirements of mankind in terms of achieving socio-economic sustenance and global stability.

Keeping these above-mentioned aspects in view, the international conference intends to focus on the paradigms of research innovations in the disciplines of sciences, engineering, technology, entrepreneurship, management, arts, humanities and other inter-disciplines to have wider knowledge integration. Also, to envisage the future challenges through a radical approach for the betterment of mankind.

Hence, the conference has been officially coined by the Conference Chair & Chief Patron as 'International Conference on Research Innovations & Challenges' – ICRIC '2027 with a Theme: Innovative Research Contributions Towards Integrated Knowledge Emancipation to garner the inter-disciplinary and multi-disciplinary research contributions across the nation and globe. This international conference has been created and powered by Centre for Research & Training (CRT) – A Growth Action Unit under the renowned National Foundation for Entrepreneurship Development (NFED), Coimbatore, Tamil Nadu, India and officially scheduled on 10-12 February 2027.

Conference Objectives

- To highlight the holistic research innovations in accordance with the current trends and future challenges for bringing in the socio-technological transformation
- To congregate the research trends across various domains for upbringing socio-economic development and sustenance
- To act as a global platform for knowledge sharing of various research contributions towards societal upliftment and global development
- To encourage and promulgate the research acumen of young students, budding researchers, scholars, academicians, entrepreneurs, industrialists and practitioners
